ARMOR STAIN SHIELD

DESCRIPTION:

A Premium Highly Concentrated Quick Drying Water & Oil Repellent System for the preservation and protection of concrete floor surfaces

FEATURES:

- Penetrates deep into surface pores*
- Increases durability -Chemically bonds with concrete floor*
- Cross-links to form a water and oil barrier yet allows the concrete to breath and transfer moisture and water vapor*
- Reduces maintenance time because surfaces become easier to clean*
- Reduces efflorescence and spalling of concrete surfaces*
- Increases stability to UV and heat and oxidation and extends life of surface*

USE DIRECTIONS:

Apply to cleaned concrete surfaces by roller or spray. Allow surface to dry. Complete curing may take up to one week depending on temperature and humidity. Covers up 1000 square feet per gallon of product depending on porosity and age of surface.

PACKAGING:

Armor Stain Shield is available in 5-gal pails and 55-gallon drums

PROPERTIES:

Appearance: Clear Fluid
Odor: Solvent Type
Density: 6.5lb/gal
